- **Net Cash Provided by Operating Activities** was RMB495.2 million (\$71.9 million), an increase of 205.4% year-over-year.

First Quarter 2017 Operational Highlights

- **Continued Focus on Mobile Traffic:** During the first quarter of 2017, the number of average daily unique visitors who accessed the Company’s mobile websites and mobile applications reached 10.1 million and 8.2 million, respectively. Combined, this represents a 23% increase in the total number of average daily unique visitors on mobile platforms compared with first quarter of 2016. Average time spent on the Company’s primary mobile application was 18 minutes per day during the first quarter of 2017.
- **Successful Launch of Augmented Reality Showroom during March Auto Festival:** The Company launched an Augmented Reality Automobile Showroom during its March Auto Festival which spanned from March 17 to 22, 2017 to enhance user engagement and interaction. Leveraging this successful launch, Autohome plans to further expand the use of augmented reality technology during its June Auto Festival by inviting more automakers to promote their products.
- **Asset-Light Vehicle E-commerce Platform Business Model:** The Company’s strategic change to become an asset-light vehicle e-commerce platform remains on track. Autohome sold 3,658 vehicles from its direct sales inventory during the first quarter of 2017.

Mr. Yan Kang, President of Autohome, stated, “We started off the year strongly with better-than-expected financial and operational results. Revenue growth from our core media and leads generation services increased 27.8% year-over-year, primarily driven by solid growth in mobile traffic and our continued gain in market share for online advertising spending, which demonstrates Autohome’s leading market position and brand recognition among consumers as well as our unrivaled advantage in leads generation. While our progress so far is very encouraging, we still have a lot of work ahead of us, particularly when it comes to growing our community, efficiently connecting consumers throughout the automobile ownership cycle, facilitating transactions, strengthening our core competitive position, and expanding the scale of our automotive ecosystem using big data analysis and technology.”

¹ The reporting currency of the Company is Renminbi (“RMB”). For the convenience of the reader, certain amounts throughout the release are presented in US dollars (“\$”). Unless otherwise noted, all conversions from RMB to US\$ are translated at the noon buying rate of US\$1.00 to RMB6.8832 on March 31, 2017 in the City of New York for cable transfers of RMB as certified for customs purposes by the Federal Reserve Bank of New York. No representation is made that the RMB amounts could have been, or could be, converted into US\$ at such rate.

Mr. Julian Wang, Chief Financial Officer, added, “We delivered an excellent quarter as we continued to gain top-line growth momentum which surpassed our original guidance. We also saw a solid improvement in our profitability despite the effects of seasonality. This reflects the success of our strategy to remain at the forefront of the industry in terms of user engagement, technology advancement, brand recognition, and commitment to our partners. Looking towards the rest of 2017, we are committed to further driving the growth and profitability of our core media platform and leads generation business, as well as further developing our value-enabling transactions and services. We will continue to enhance our value propositions to consumers, automakers and dealer clients in order to further strengthen the foundation of our business.”

Net Revenues

Net revenues increased 23.3% to RMB1,348.4 million (\$195.9 million) from RMB1,093.5 million in the corresponding period of 2016. The increase was mainly due to a 27.8% increase in revenues from media and leads generation services.

- **Media services** revenues increased 17.2% to RMB518.1 million (\$75.3 million) from RMB442.1 million in the corresponding period of 2016. -
- **Leads generation services** revenues increased 40.1% to RMB538.0 million (\$78.2 million) from RMB384.1 million in the corresponding period of 2016. The increase was primarily attributable to a 26.0% year-over-year increase in average revenue per paying dealer as dealers continue to allocate a greater portion of their budgets to the Company's services. .
 - **Online marketplace** revenues were RMB292.3 million (\$42.5 million) compared to RMB267.3 million in the corresponding period of 2016. In the first quarter of 2017, the Company sold 3,658 vehicles and generated RMB275.1 million (\$40.0 million) in direct vehicle sales revenues, which accounted for 94.1% of online marketplace revenues. Cost of Revenues

Cost of revenues increased 16.0% to RMB444.6 million (\$64.6 million) from RMB383.4 million in the corresponding period of 2016, primarily due to an increase in cost of goods sold related to direct vehicle sales and an increase in valued-added tax and surcharges along with the increase in revenue. In addition, cost of revenues included share-based compensation expenses of RMB4.1 million (\$0.6 million) during the first quarter of 2017, compared to RMB2.0 million for the corresponding period of 2016.

Operating Expenses

Operating expenses increased 7.7% to RMB556.4 million (\$80.8 million) from RMB516.6 million in the corresponding period of 2016. This increase was mainly due to increases in product development expenses as the Company continues to reinvest in future growth opportunities.

- **Sales and marketing** expenses decreased 6.9% to RMB306.3 million (\$44.5 million) from RMB329.1 million in the corresponding period of 2016. Sales and marketing expenses for the first quarter of 2017 included share-based compensation expenses of RMB10.7 million (\$1.6 million), compared with RMB11.1 million in the corresponding period of 2016.
- **General and administrative** expenses decreased 16.2% to RMB60.4 million (\$8.8 million) from RMB72.0 million in the corresponding period of 2016. - **Product development** expenses increased 64.3% to RMB189.7 million (\$27.6 million) from RMB115.5 million in the corresponding period of 2016. This increase was primarily attributable to an increase in salaries and benefits associated with growth in product development headcount, which is in line with the Company's strategy of strengthening its technology and big data analysis capabilities. Product development expenses for the first quarter of 2017 included share-based compensation expenses of RMB14.5 million (\$2.1 million), compared with RMB10.8 million in the corresponding period of 2016.

The Company had 3,745 employees as of March 31, 2017.

Business Outlook

Autohome currently expects to generate net revenues in the range of RMB1,405 million (\$204.1 million) to RMB1,437 million (\$208.8 million) in the second quarter of fiscal year 2017, representing a 1.9% to 4.3% year-over-year increase.
