Mr. Quan Long, Chairman of the Board of Directors and Chief Executive Officer of Autohome, stated, "During the second quarter of 2023, we actively advanced our C-end strategy, making steady progress across content optimization and business diversification while expanding our traffic through multiple channels. In mid-June, we debuted China's first mobile exhibition truck featuring a large-scale holographic display, providing consumers in lower- tier cities with more comprehensive information on new energy vehicles ("NEVs") and enabling NEV brands to expand their reach into these markets, in line with the government's policy to support NEV consumption in rural areas. We also unveiled our first Autohome Energy Space franchise store in Haikou, Hainan Province, marking the beginning of this new retail franchise model's expansion nationwide. Moreover, we accelerated the application of AI technology in all business scenarios, enabling our partners to reduce costs and increase efficiency. We developed two decision-making assistant products based on a GPT model, providing both users and customers with more efficient services. Looking ahead, we are confident that with long-term accumulation of cutting-edge technology and growing brand advantages as well as our comprehensive innovation incubation system, Autohome is well positioned to seize the opportunities across the industry and achieve diversified business growth."

No representation is made that the RMB amounts could have been, or could be, converted into US\$ at such rate.

Mr. Craig Yan Zeng, Chief Financial Officer of Autohome, added, "Our financial and operational performance continued to recover steadily with a 6% year-over-year increase in total revenues in the second quarter of 2023, led by strong growth in our online marketplace and others business. Notably, revenues from both TTP Car, Inc. and data products delivered double-digit growth year-over-year, and revenue from NEV brands maintained its robust growth momentum. Meanwhile, in June 2023, our mobile DAUs grew by 31.7% year-over-year to reach 62.71 million, according to QuestMobile, demonstrating our sustained leadership in the automotive media vertical. We have also made significant progress in the development of new models and products, further reinforcing our market leadership in key areas. As we move forward, we will remain committed to the two major industry trends of NEVs and artificial intelligence, constantly innovating to bring superior products and services to users and customers, and ultimately delivering long-term value to all shareholders."
