- Share Repurchase: As of July 31, 2022, the Company has repurchased 1,883,906 American depositary shares ("ADSs") for a total cost of approximately US\$54.2 million.

Mr. Quan Long, Chairman of the Board of Directors and Chief Executive Officer of Autohome, stated, "We are pleased to report a strong operational and financial performance in the second quarter of 2022. Though we faced a rather challenging environment due to the pandemic, Autohome still delivered another solid quarter, clearly demonstrating our business resilience and market-leading position. For users, we continued to promote our core IP strategy and differentiate our offerings to provide users with more choices and services, effectively expanding our user base as we further diversified content ecosystem. In June 2022, our aggregated average daily users grew by 8.1% year-over-year to 47.63 million, according to QuestMobile, setting a new record high and firmly maintaining our leading position in the auto vertical. For our customers, we proactively built new business operation models in response to the cancellation of local offline auto shows due to the pandemic's resurgence. For example, we added VR functionality to our Intelligent Showroom, helping our customers to expand their user reach. We also normalized online auto shows, providing automakers a platform to promote their localized marketing information. In the first half of the year, we held more than 300 national and local online auto shows, covering over 70 million people throughout China. Moving ahead, we remain committed to enhancing our platform while accelerating new initiatives and deepening synergies with Ping An Group. We look forward to generating additional long-term value for our users, customers, shareholders and other stakeholders across our comprehensive auto search, purchase and use ecosystem."

The reporting currency of the Company is Renminbi ("RMB"). For the convenience of readers, certain amounts throughout the release are presented in US dollars ("US\$"). Unless otherwise noted, all conversions from RMB to US\$ are translated at the noon buying rate of US\$1.00 to RMB6.6981 on June 30, 2022 in the City of New York for cable transfers of RMB as certified for customs purposes by the Federal Reserve Bank of New York. No representation is made that the RMB amounts could have been, or could be, converted into US\$ at such rate.

For more information on this and other non-GAAP financial measures, please see the section captioned "Use of Non-GAAP Financial Measures" and the tables captioned "Reconciliations of Non-GAAP and GAAP Results" set forth at the end of this release.

Mr. Craig Yan Zeng, Chief Financial Officer of Autohome, added, "We sustained our strong recovery momentum in the second quarter of 2022 with revenues totaling RMB1.73 billion. Notably, the year-over-year revenue growth for our new energy vehicle ("NEV") business once again significantly outpaced the market. Despite the pandemic, by leveraging our big data and technology capabilities, we enabled our dealer customers to realize contactless sales and marketing with our data products and services, leading to an increase in our product popularity. We are also glad to see that the number of our dealer customers for data products in the second quarter increased by 14% year-over-year while for the first half of this year, the average revenue per dealer store and the average number of data products adopted by each dealer store rose by 20% and 32% year-over-year, respectively, all exhibiting strong growth trends. Looking to the rest of 2022, with government stimulus packages for auto consumption taking effect and supported by our robust balance sheet and abundant cash on hand, we are confident that we are well-positioned to capture new opportunities in strategic areas that will contribute to Autohome's future growth."

We define Adjusted Net Income attributable to Autohome Inc. as net income attributable to Autohome Inc. excluding share-based compensation expenses, amortization of intangible assets resulting from business acquisition, certain noncontrolling interests adjustments for TTP (starting in the first quarter of 2021 for the first time, which included interest income related to convertible bond investment to TTP that is eliminated in consolidation), investment loss relating to non-operating impact of a write-down of the initial investment in a financial product, (gain)/loss pickup of equity method investments, and impairment of long-term investments, with all the reconciliation items adjusted for related income tax effects. We believe these non-GAAP financial measures are important to help investors understand our operating and financial performance, compare business trends among different reporting periods on a consistent basis and assess our core operating results, as they exclude certain non-cash charges or items that are non-operating in nature. The use of the above non-GAAP financial measures has certain limitations as they excluded certain items that have been and will continue to be incurred in the future, but such items should be considered in the overall evaluation of our results. These non-GAAP financial measures should be considered in addition to financial measures prepared in accordance with GAAP, but should not be considered a substitute for, or superior to, financial measures prepared in accordance with GAAP.
