### **Use of Non-GAAP Financial Measures**

To supplement net income presented in accordance with U.S. GAAP, we use Adjusted Net Income attributable to Autohome Inc., Non-GAAP basic and diluted EPS and per ADS, Adjusted net margin and Adjusted EBITDA as non-GAAP financial measures. We define Adjusted Net Income attributable to Autohome Inc. as net income attributable to Autohome Inc. excluding share-based compensation expenses, amortization expenses of acquired intangible assets of Cheerbright, China Topsid and Norstar, and certain noncontrolling interests adjustments for TTP (which for the first time starting in the first quarter of 2021 included interest income related to convertible bond investment to TTP, which is eliminated in consolidation). We define Non-GAAP basic and diluted EPS as Adjusted Net Income attributable to Autohome Inc. divided by the basic and diluted weighted average number of ordinary shares. We define Adjusted net margin as Adjusted Net Income attributable to Autohome Inc. divided by total net revenues. We define Adjusted EBITDA as net income attributable to Autohome Inc. before income tax expense, depreciation expenses of property and equipment, amortization expenses of intangible assets, and share-based compensation expenses. We present these non-GAAP financial measures because they are used by our management to evaluate our operating performance, in addition to net income prepared in accordance with U.S. GAAP. We believe these non-GAAP financial measures are important to help investors understand our operating and financial performance, compare business trends among different reporting periods on a consistent basis and assess our core operating results, as they exclude certain expenses that are not expected to result in cash payments. The use of the above non-GAAP financial measures has certain limitations. Share-based compensation expenses have been and will continue to be incurred in the future and are not reflected in the presentation of the non-GAAP financial measures, but should be considered in the overall evaluation of our results. These non-GAAP financial measures should be considered in addition to financial measures prepared in accordance with GAAP, but should not be considered a substitute for, or superior to, financial measures prepared in accordance with GAAP. For more information on these non-GAAP financial measures, please see the table captioned "Reconciliation of non-GAAP and GAAP Results" set forth at the end of this press release.
