- **New CFO Appointment:** On May 6, 2022, the Board of Directors appointed Mr. Craig Yan Zeng as Chief Financial Officer of Autohome, effective on the same day.

Mr. Quan Long, Chairman of the Board of Directors and Chief Executive Officer of Autohome, stated, “Since the beginning of this year, the resurgence of COVID-19 pandemic in multiple cities of China has impacted most industries including the automobile industry. Despite the challenging macro environment, Autohome reported a solid first quarter with revenues totaling RMB1.47 billion, which exceeded the market expectation, and maintained good profitability and high margin level. We believe our steady financial performance and strong cash flow could support Autohome to navigate through market uncertainties and focus on long-term development. Meanwhile, a healthy balance sheet and ample cash reserves allow us to continue to implement our share repurchase program and dividend policy. During this quarter, we significantly enhanced our content offerings with a greater variety of video and live streaming content and upgraded our new energy vehicle (“NEV”) platform with a refreshed layout and user-friendly functionalities. These initiatives have successfully strengthened Autohome’s content ecosystem while delivering a better user experience and have already gained substantial traction. In March 2022, our aggregated average daily active users grew by 7.5% year-over-year to 45.21 million, according to QuestMobile, further solidifying our leadership position in the auto media sector. In addition, revenues from NEV brands soared by 156.1% in the first quarter of 2022 compared to the same period last year. We are also encouraged by the sustained growth momentum in the number of our dealer customers who have adopted an increasingly variety of our data products. Supported by our strong network effect, innovation capabilities and visionary management team, we believe these advancements will further strengthen our eco-platform and empower us to capture new opportunities in the years to come.”

¹ The reporting currency of the Company is Renminbi (“RMB”). For the convenience of readers, certain amounts throughout the release are presented in US dollars (“US\$”). Unless otherwise noted, all conversions from RMB to US\$ are translated at the noon buying rate of US\$1.00 to RMB6.3393 on March 31, 2022 in the City of New York for cable transfers of RMB as certified for customs purposes by the Federal Reserve Bank of New York. No representation is made that the RMB amounts could have been, or could be, converted into US\$ at such rate.

² For more information on this and other non-GAAP financial measures, please see the section captioned “Use of Non-GAAP Financial Measures” and the tables captioned “Reconciliations of Non-GAAP and GAAP Results” set forth at the end of this release.

“Furthermore, we are thrilled to welcome Mr. Craig Yan Zeng to Autohome as our Chief Financial Officer. Mr. Zeng has over 20 years’ experience in the capital markets and has held various senior management positions at both US-listed and HK-listed companies, including LexinFintech, Hop Hing Group Holdings, VanceInfo Technologies, as well as General Electric in the U.S. We believe his extensive experience, skills and leadership will be valuable asset to the Company and help Autohome achieve the next stage of growth.” concluded Mr. Long.

Mr. Zeng, Chief Financial Officer of Autohome, added, “I am pleased to join Autohome’s senior management team and look forward to contributing to the Company’s long-term development. For the first quarter of 2022, we delivered better-than-expected results. The year-over-year revenue growth rate for our NEV brands and used car business both outperformed the market, demonstrating our value proposition and industry demand for our innovative products. Looking ahead, we will continue to focus on long-term business development and invest strategically to remain at the forefront of innovation while maintaining a high-quality growth standard. With the solid foundation we have built, our strong balance sheet and ample cash reserves, we believe we are well-positioned to achieve sustainable growth and deliver long-term value to our shareholders.”

Use of Non-GAAP Financial Measures

To supplement net income presented in accordance with U.S. GAAP, we use Adjusted Net Income attributable to Autohome Inc., Non-GAAP basic and diluted EPS and earnings per ADS, Adjusted net margin and Adjusted EBITDA as non-GAAP financial measures. We define Adjusted Net Income attributable to Autohome Inc. as net income attributable to Autohome Inc. excluding share-based compensation expenses, amortization of intangible assets resulting from business acquisition, certain noncontrolling interests adjustments for TTP (starting in the first quarter of 2021 for the first time, which included interest income related to convertible bond investment to TTP and is eliminated in consolidation), investment loss relating to non-operating impact of a write-down of the initial investment in a financial product, and (gain)/loss pickup of equity method investments, with all the reconciliation items adjusted for related income tax effects. We define Non-GAAP basic and diluted EPS as Adjusted Net Income attributable to Autohome Inc. divided by the basic and diluted weighted average number of ordinary shares. We define Non-GAAP basic and diluted earnings per ADS as Adjusted Net Income attributable to Autohome Inc. divided by the basic and diluted weighted average number of ADSs. We define Adjusted net margin as Adjusted Net Income attributable to Autohome Inc. divided by total net revenues. We define Adjusted EBITDA as net income attributable to Autohome Inc. before income tax expense, depreciation expenses of property and equipment, amortization expenses of intangible assets and share-based compensation expenses. We present these non-GAAP financial measures because they are used by our management to evaluate our operating performance, in addition to net income prepared in accordance with U.S. GAAP. We believe these non-GAAP financial measures are important to help investors understand our operating and financial performance, compare business trends among different reporting periods on a consistent basis and assess our core operating results, as they exclude certain non-cash charges or items that are non-operating in nature. The use of the above non-GAAP financial measures has certain limitations as they excluded certain items that have been and will continue to be incurred in the future, but such items should be considered in the overall evaluation of our results. These non-GAAP financial measures should be considered in addition to financial measures prepared in accordance with GAAP, but should not be considered a substitute for, or superior to, financial measures prepared in accordance with GAAP. For more information on these non-GAAP financial measures, please see the table captioned “Reconciliation of non-GAAP and GAAP Results” set forth at the end of this press release.
